

DISINFECTING SCHOOLS, UNIVERSITIES, AND DAYCARES

Children and the schools that allow them to safely learn are as important to the future as they are vulnerable to dangerous pathogens. Introduce SteraMist disinfection to your facility today and discover an advanced technology to fight cross-contamination and emergency outbreaks.

STERAMIST TREATS:

- Desks, tables, counters, cabinets
- Drinking fountains, sinks, and toilets
- Hallways, lobbies, lockers, closets
- Gymnasiums, auditoriums, cafeterias
- Toys, games, mats, cubbies
- ...and many more!

NO MATTER WHAT YOUR INDUSTRY IS,
STERAMIST[®] MAKES IT EASY

ENSURE THE ROOM IS CLEAR

Clear the area of visible debris, ensure that all drawers and cabinets are opened, and no unauthorized personnel are in the room.

SPRAY THE AREA

Apply SteraMist disinfection technology to the entire area.

RETURN TO THE ROUTINE

Return the equipment to your storage for the next disinfection and enjoy your newly disinfected facility.
