

EXTENSIVELY TESTED

EASY APPLICATION

TRUSTED RESULTS

DELIVERING ENHANCED **HEALTHCARE DISINFECTION**

Whether you need to disinfect the high-touch surfaces of patient carts or the sensitive surfaces of a NICU, SteraMist seamlessly integrates into and upgrades your process to let you limit liability and deliver peace-of-mind. Create a cleaner environment for patients, staff, and visitors by reducing the most common and dangerous microorganisms in healthcare facilities. Go beyond traditional disinfection.

From start to finish, taking it out of the closet to completing the room, **it only takes about 10 minutes.** [All] while still having the highest rating for reducing bloodstream infections. - *Saint Francis Hospital*

DISCOVER **ENDLESS APPLICATIONS**

- Compact for sites such as ASCs, SNFs, LTACHs
- Effective in high-risk areas such as ICU & pediatrics
- Easily reduce facility cleaners & costly overhead
- Ideal for pandemic & bio-terrorism preparedness
- Eliminate mold & spores caused by construction projects

“[Steramist] only requires seconds to kill bacteria...

We can place a room back into service faster knowing it's safe for the next patient.”

- *Bayhealth Hospital*

“Steramist is safe for all surfaces, including computers and soft furnishings, as well as for cleaning HVAC and duct systems...”

- *St. Mary's Medical Center*

HANDHELD CONVENIENCE

SURFACE UNIT®

5-Second Application & Precision

The Surface Unit brings you handheld control with mobility to take on any healthcare site.

Featuring an easy-to-store design, integrated accessory storage, and direct power functionality, the Surface Unit is designed to keep up with you throughout the busiest schedules with consistent, powerful results.

Let cutting-edge SteraMist disinfection technology take you and your team even further with the Surface Unit.

PORTABLE DISINFECTION

STERAPAK®

Premium On-the-Go Portability

Place the power of SteraMist on your back and go wherever you're needed with the SteraPak.

Deliver innovative disinfection without compromise using the most portable SteraMist unit yet. Features enhanced maneuverability, battery/direct power operation, and a compact BIT Solution cartridge to lighten your load further than ever before.

Never worry about inconsistent application or unreliable efficacy again with the SteraPak.

CENTRALIZED STORAGE

TOTAL DISINFECTION CART®

Mobile System & Accessory Storage

Discover convenience that rivals the disinfection power of SteraMist with the Total Disinfection Cart.

Features a ventilated stainless steel chassis, non-skid swivel caster wheels, high ground clearance, narrow profile, standing caution sign, and accessory hooks.

With centralized storage for your Surface Unit, applicators, PPE, sensors, and air scrubber, the Total Disinfection Cart makes it easier than ever to navigate around your healthcare facility.
